Vivek Nagare
Full Stack Web Developer

Sankeshwar, Belagavi, Karnataka – 591313 | +917795394569 | nagarevivek206@gmail.com | https://linkedin.com/in/vivek-nagare-b44b66301

PROFILE SUMMARY

Motivated Frontend Developer skilled in Java, HTML, CSS, JavaScript, databases.academic projects like Ai-Based smart parking systems, Inventory management system, Deals on wheels.Highly motivated to apply technical knowledge in real-world projects.

TECHNICAL SKILLS

- **Languages:** C, Java, Python,HTML/CSS, JavaScript, SQL
- **Tools:** VS Code, Git, GitHub, Android Studio, Eclipse
- **Soft Skills:** Good communication, Teamwork, Problem solving.

PROFESSIONAL EXPERIENCE

Intern | Workflow Software Solution **Mar 2023 – Aug 2023**

- I worked as a Software Development Intern at Workflow Software Solutions, where I am gaining practical experience in web development and software engineering.
- I have worked with technologies such as HTML, CSS, Java, and Databases to develop and maintain web-based applications. I contributed to a project called Deals on Wheels.

Visvesvaraya Research and Innovation Foundation, Belagavi. | Internship **Feb 2026 – Present**

- I am currently working as a Software Development Intern at Visvesvaraya Research and Innovation Foundation (VRIF), Belagavi, This internship has helped me strengthen my technical skills, problem-solving ability, teamwork, and understanding of real-world software development processes
- My responsibilities included developing responsive user interfaces using HTML and CSS, implementing backend logic using Java, and performing database design, queries, and data management.

PROJECTS

Deals on wheels *HTML, CSS, JavaScript, java, MySQL,*

- Deals on Wheels is a full-stack web application developed to provide users with an easy and efficient platform to explore, manage, and access vehicle-related deals and services online..
- The main objective of this project is to simplify the process of browsing offers, managing vehicle information, and improving user experience through a responsive web system.

Inventory management System *XML , Kotlin ,java, MySQ,*

- Aim is to develop a web-based system that efficiently manages and tracks inventory data. to reduce manual errors and paperwork in stock management and provide real-time visibility of product quantity and availability.
- Manual systems make it difficult to monitor stock levels, update product details, and generate accurate records. This results in overstocking, stock shortages, and time-consuming processes.

Ai-Based smart parking system *XML, Kotliin, java,* NoSql

- In many cities and crowded areas, finding an available parking space is difficult and time-consuming traditional parking systems do not provide real-time information about vacant spaces and are mostly manual, inefficient, and unorganized.
- To develop an intelligent parking system using Artificial Intelligence to detect and monitor parking spaces. To provide real-time information about available and occupied parking slots.

EDUCATION

Hirasugar Institute of Technology **Nov 2023 - Present**
Bachelor of Science - CGPA : 8.31 *Nidasoshi, Belagavi*
SNJPNMS Trust Polytechnic Nidasoshi **Aug 2020 – Aug 2023**
Diploma in computer science and engginerring – CGPA:9.21 *Nidasoshi, Belagavi*
SD High School Sankehwar **June 2019 – July 2020**
SSLC:Percentage:70.4% *Sankeshwar, Belagavi*

CERTIFICATIONS

- CSS ,HTML,DBMS(Basic) –**Infosys Spring Board**
- Introduction to Genrative AI Studio (powerd by:Google Cloud) – **Simplilearn**
- TVS Credit Epic 7.0-IT Challenge – **TVSCREDIT**
- Campus Recruiter Internship - **Ionox Tech Pvt.Ltd..**
